Redwater and Gallsickness exposure

Beaumont Farm

Rosetta KZN

History

In the early 2000s, Mark and Angie Arbuthnot started a Bonsmara herd with cattle bought primarily from Angie's father, Lawrence Ralfe (Up George Bonsmaras). Up to 2021, the herd was raised on Del Oro farm, with Beaumont Farm being purchased in 2021 - when Matthew and Lauren Moxham (nee Arbuthnot) joined the farm to assist with running the herd. Lawrence Ralfe played a big role as mentor and was integral in the success of the current Beaumont herd.

With an emphasis on producing cattle with the following qualities: high milk production, ease-of-calving and high weaner weight, very specific bulls were introduced to the herd. These were mainly from Up George, with some being bought from other established breeders, like JJ Park, Arthur de Villiers and Danie Olivier.

Here at Beaumont, we pride ourselves on producing bulls that are adaptable for any condition. We take pride in the meticulous nature of our record-keeping, breeding program and cow management - they're our most important commodity.

Cattle are exposed to both Asiatic and European Redwater as well as gallsickness and are fully vaccinated under a strict program supervised by local veterinarians.

	General		Birth		Parents		Maternal Grandparents		Weights		
LOT No.	ID No.	Season	Birth Date	Age (Mths)	Sire	Dam	Grand Sire	Grand Dam	Birth Weight (kg)	Wean Weight (220d)	Last Weight (28/08/25)
1	ARB23-255	2023SP	2023/10/27	22	LAR15-419	ARB16-004	LAR13-001	ARB11-046	32	225	549
	Deep bull with a smooth dark coat and good build. Dam 16-004 has 100% retention of female heifers. Son of LAR15-419, the half brother of the famous LAR14-173 (Both sired by LAR12-033), who constantly produces hefty weaners.										
2	ARB23-119	2023SP	2023/08/27	24	AJF13-415	ARB17-051	JRP11-024	ARB09-042	37	246	553
	This lighter coated, correct bull comes from a lineage of top producing Dams. Dam, ARB17-051, and granddam, ARB09-042, were the dams of ARB22-011 (2023 Bull Sale) and ARB21-094 (2022 Bull Sale) respectively. One of the 4 grand calves on this year sale from the good genetics of JRP11-024.										
3	ARB23-132	2023SP	2023/09/01	24	ARB21-033	ARB14-093	JRP11-024	ARB09-036	32	220	470
	Standout bull with his bont colouring and good conformation. Good depth and width. Sire, ARB21-033, was retained due to his remarkable genetics. Son of LAR15-419 who has continuously produced well-formed, hefty weaners. Dam, ARB14-093 is the daughter of remarkable JRP11-024. She has produced 7 calves with a RI of 100.										
4	ARB23-087	2023SP	2023/08/19	25	ARB21-033	ARB17-069	LAR13-244	ARB11-057	36	241	546
	An exceptional bull that stood out already as a calf. A very broad, correct bull with good capacity. Son of one of our best breeding cow, ARB17-069. This dam has produced exceptional progeny each year and continues to do so. Dam of our top bull (ARB21-037) sold in 2022 Bull Sale. Another bull sired from our ARB21-033. This sire produces chunky calves with the right balance of flesh and muscling.										
5	ARB23-049	2023AU	2023/05/28	27	LAR18-289	ARB20-002	LAR16-225	ARB17-069	34	225	626
	A remarkable block of beef with the desired width, capacity and masculinity. A progeny of top quality genetics. Son of first calver, ARB20-002, who is the daughter of ARB17-069 (One of our best breeding cows in the herd). ARB17-069 was the dam of our top bull (ARB21-037) sold in 2022 Bull Sale, who is the half brother of ARB23-087 (on this years sale). Sire, LAR18-289, is the Bonsmara platinum award winning bull.										
6	ARB23-043	2023AU	2023/05/23	28	AJF13-415	ARB17-110	LAR13-331	ARB12-084	34	222	691
	A very striking, muscly bull that showcases its masculine frame with broad shoulders and length. Well built with excellent capacity. Dam ARB17-100 has an average wean weight of 233kg. Sire LAR13-415 has been a stalwart for the herd and continues to produce heavy weaners.										
7	ARB23-153	2023SP	2023/09/08	24	LAR15-419	ARB14-032	LAR10-241	ARB08-001	36	239	584
	Big framed, well-formed bull with a light undertone. Dam, AB14-032 is a stalwart cow calving each year with a AVICP of 373. She has RI of 107 and is pregant with her 9th calf. Sire, LAR15-419, carries the same paternal genetics as top UpGeorge bull LAR14-173.										

	General		Birth		Parents		Maternal Grandparents		Weights		
LOT No.	ID No.	Season	Birth Date	Age (Mths)	Sire	Dam	Grand Sire	Grand Dam	Birth Weight (kg)	Wean Weight (220d)	Last Weight (28/08/25)
8	ARB23-133	2023SP	2023/09/01	24	AJF13-415	ARB17-098	JRP11-024	ARB05-012	38	244	509
	ARB23-133 is a hardy bull who stands out with his darker red coat and white head triangle. Dam, ARB17-098, is a fertile cow with good milk supply. She has calved each year with an average weaning weight of 239kg. The fabled JRP11-024 is the maternal grandsire of this bull.										
9	ARB23-028	2023AU	2023/04/28	28	AJF13-415	ARB17-033	JRP11-024	ARB09-027	36	220	577
	Hardy bull with good length. His maternal grandsire is again the remarkable JRP11-024, an excellent bull with proven genetics. ARB23-028 is the son of AJF13-415 who produces strong calves (Sire AG09-762 was a very good looking bull).										
10	ARB23-031	2023AU	2023/04/30	28	LAR15-419	ARB12-003	BBN08-075	ARB09-020	36	228	705
	Distinguishable by its lighter colouring around the eyes and muzzle, ARB23-031 is a big framed bull with good length. Dam, ARB12-003 is a very fertile, good milk producer. One of the older cows in the herd still continuously producing excellent weaners. Average wean weight of 231kg with RI of 104.										
11	ARB23-046	2023AU	2023/05/27	27	LAR19-267	ARB13-085	LAR10-031	LAR08-387	36	226	586
	Early maturing bull, with the right balance of flesh and muscling. Good head and hind quarters. Progeny of a good fertile female line. Dam ARB13-085 has an RI of 114 with an average wean weight of 221kg. One of 3 bulls on this years sale from Sire, LAR19-267, who is breeding well-formed, deep bulls.										
12	ARB23-169	2023SP	2023/09/12	24	LAR19-310	ARB20-088	LAR15-419	ARB11-060	34	221	473
	Rugged, fleshy bull that has great potential. Son of first calver ARB20-088, the daughter of ARB11-060 (Dam of ARB21-133 - 2023 Bull Sale). Only son on the sale from Sire LAR19-310, who ran with our spring heifers and has produced solid calves.										
13	ARB23-141	2023SP	2023/09/03	24	LAR19-267	ARB19-016	MS:LAR14-041 & ARB16-001	ARB10-094	34	235	596
	A burly bull - deep and broad. Early maturing with self-evident good genetics. Dam ARB19-016 and Granddam ARB10-094 produce big, beefy, top bulls each year, namely: ARB22-021 and ARB21-040 respectively. Sire LAR19-267 produces good capacity bulls.										
14	ARB23-288	2023SP	2023/12/02	21	AJF13-415	ARB10-018	LAR03-069	LAR02-093	34	211	473
	Strong headed bull with great mik production genes. The last calf of the impressive ARB10-018. This highly fertile cow produced 11 calves for the herd. She has an average wean weight of 246kg and RI 107. Sire, AFJ13-415, continuously produces strong big bulls.										
15	ARB23-261	2023SP	2023/11/04	22	LAR18-289	ARB15-076	LAR10-023	ARB11-055	36	219	492
	Grand dam ARB11-055 was one of our favourite cows in the herd - good fertility and consistently produced solid calves each year. Her daughter ARB15-076 has followed in her footsteps producing 7 calves. ARB23-002 the son of ARB11-055 was sold in the 2024 bull sale. ARB23-261 is a solid bull that has great potential. Son of platinum award winning LAR18-289.										

	General		Birth		Parents		Maternal Grandparents		Weights		
LOT No.	ID No.	Season	Birth Date	Age (Mths)	Sire	Dam	Grand Sire	Grand Dam	Birth Weight (kg)	Wean Weight (220d)	Last Weight (28/08/25)
16	ARB23-273	2023SP	2023/11/17	22	LAR18-289	ARB17-004	LAR13-202	ARB14-065	36	218	454
	Good smooth red colouring with a lovely masculine head and build. Grandmother ARB14-065 was an impressive cow who sold bull yearling ARB21-108 on the 2022 Bull Sale. She had a 100% retention rate. Another son of exemplary LAR18-289.										
17	ARB23-266	2023SP	2023/11/05	22	LAR19-267	ARB19-134	MS: LAR15-419 & AJF13-415 & ARB16-088	LAR07-276	34	219	508
	Perfectly conformed bull with a masculine face. Wide and deep frame consistent with the bulls produced for this years sale by sire LAR19-267.										
18	ARB23-149	2023SP	2023/09/06	24	ARB21-033	ARB18-007	LAR13-331	ARB12-012	36	243	529
	Perfect conformation bull with great genetics. Dam, ARB18-007 has produced top quality heifers with 100% retention. Its first bull calf, ARB22-091, was one of the top bulls sold last year. This wonderful second bull calf will be a great foundation to a herd.										
19	ARB23-289	2023SP	2023/12/19	21	ARB21-033	ARB18-058	MS: LAR13-331 & LAR14-063 & ARB16-088	ARB13-061	34	221	499
	The youngest bull on the sale. A correct bull that has great potential. Great capacity and width. Another son of sire ARB21-033. ARB21-033 is the son of LAR15-419 and ARB09-004 - exeptional mix of form and genetics.										
20	ARB23-226	2023SP	2023/10/13	23	LAR18-289	ARB18-104	MS: LAR14-420 & LAR14-156 & ARB16-037	ARB10-074	34	220	509
	Dark smooth-coated, correct bull with a lovely head. Dam ARB18-104 has produced another beautiful bull calf this year - ARB21-128 sold as a yearling in 2022 bull sale. LAR18-289 genetics will enhance any herd.
